

ARXIV

AI & ML Paper Analysis (1993 - 2019)

arXiv.org project overview

Cristopher Benge

cris.benge@berkeley.edu

Rahul Kulkarni

rauhl.kulkarni@berkeley.edu

Anu Yadav

anu.yadav@berkeley.edu

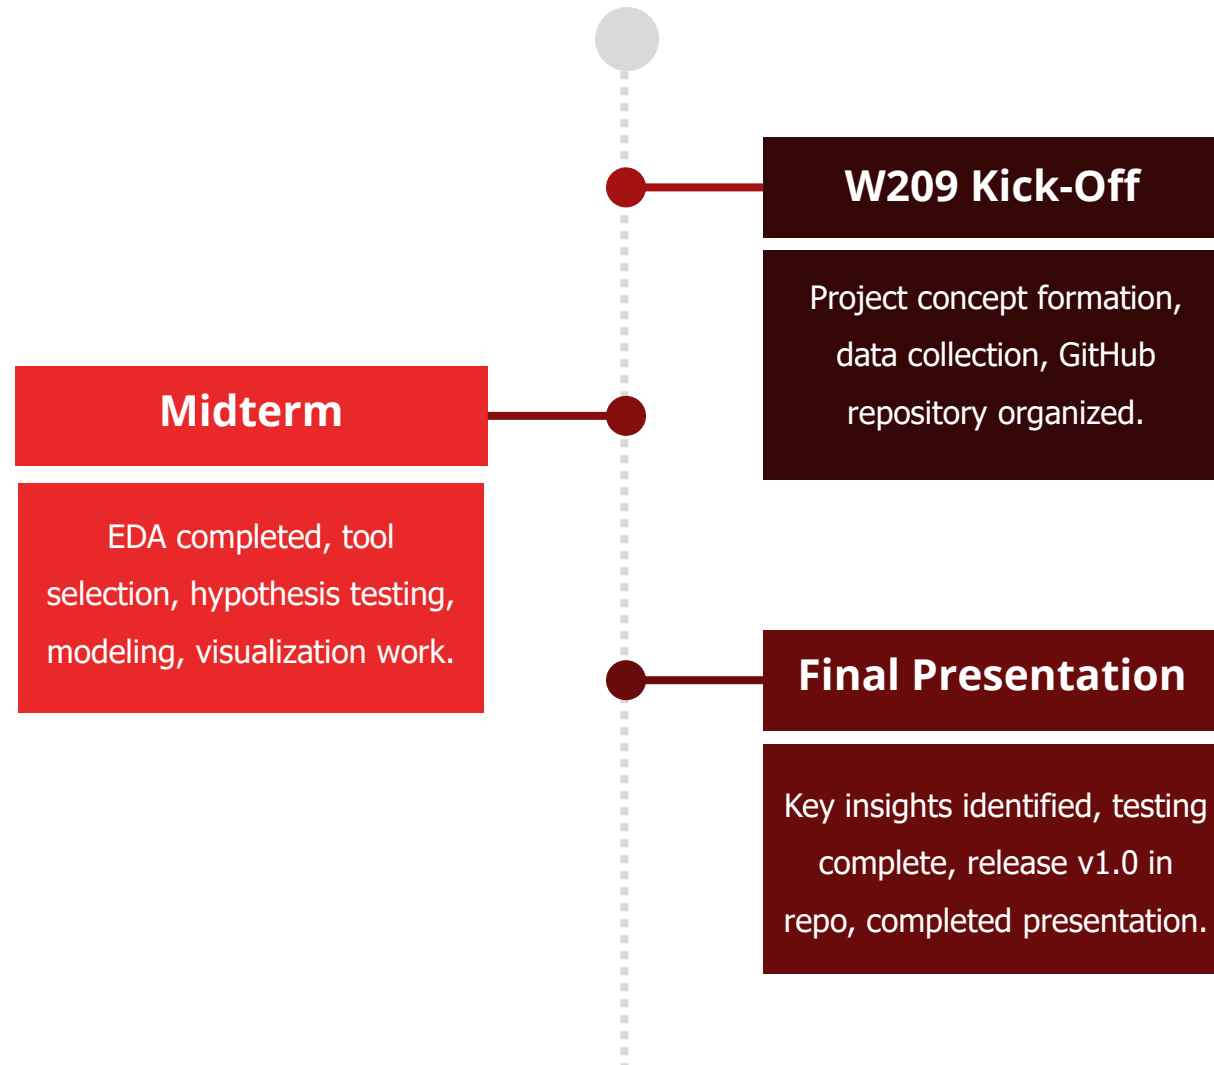

arXiv™ is a free distribution service and open archive for scholarly articles in the fields of physics, mathematics, computer science, quantitative biology, finance, statistics, electrical engineering and systems, and economics.

Our project aims to highlight AI/ML topic trends, paper submission behavior, and emerging areas of interest to students and researchers in the field of artificial intelligence and machine-learning – sourced entirely from arXiv's 1.7M scholarly articles.

Validation Testing

Our approach follows an informal usability study, focusing on evaluating the ability of study candidates to reach task-oriented insights, and the time spent to achieve basic understanding of data presented

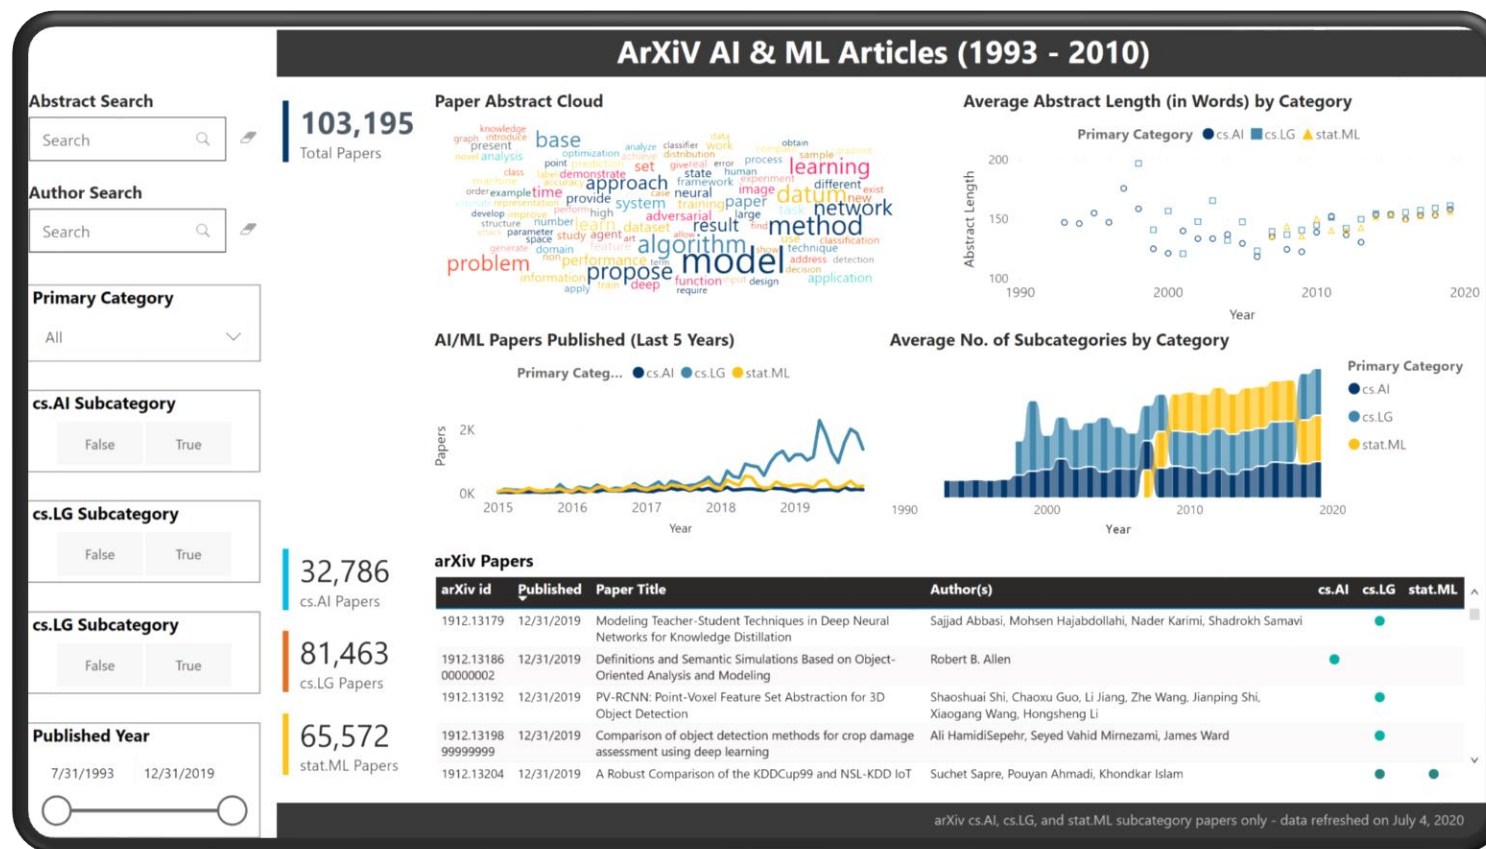

INSIGHTS in cs.AI, cs.ML, stat.ML

RESEARCH (1993 – 2019)

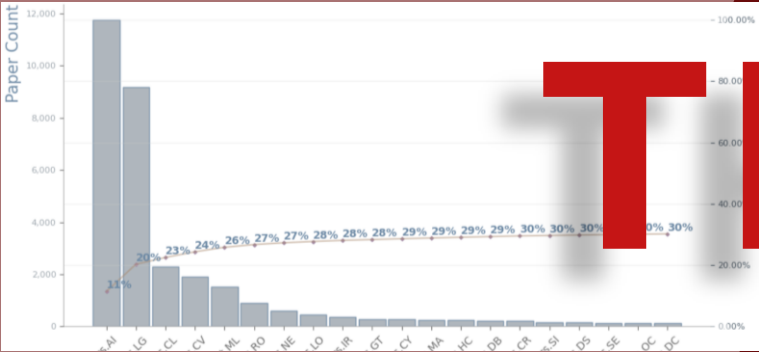

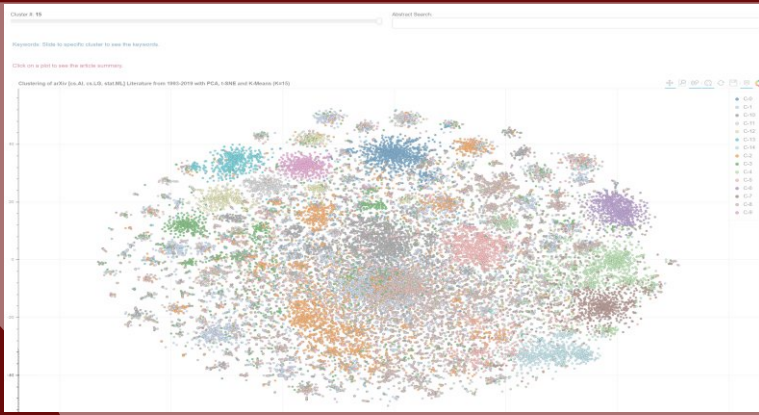

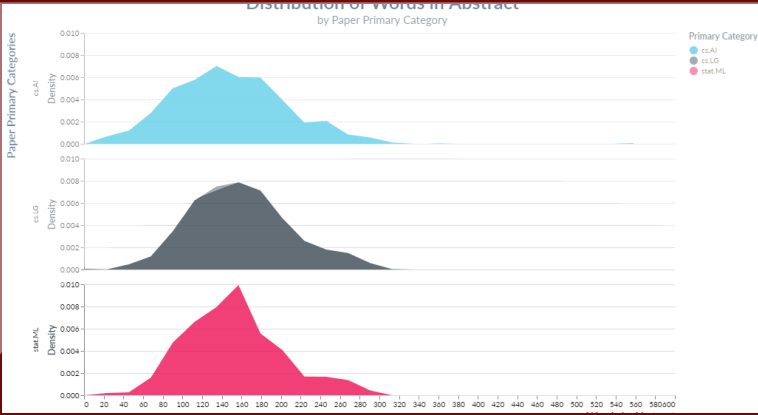

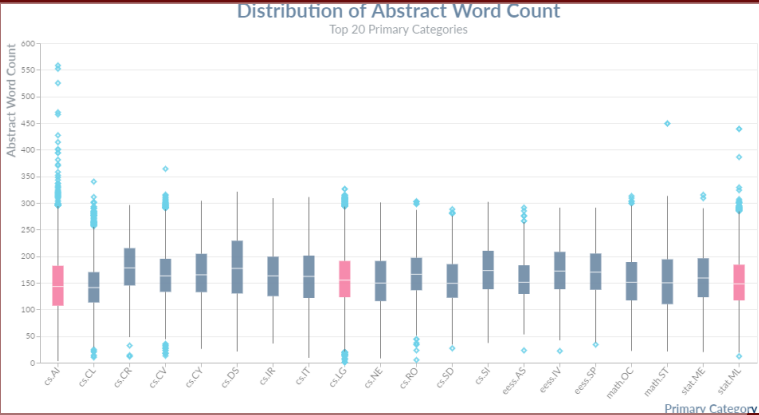

Power BI service-hosted ArXiv AI & ML Articles dashboard drives insights in an interactive browser experience.

View Now

Instant access to arXiv's impressive collection of
artificial intelligence & machine learning papers.

Desktop experience is also available in repo!
